

# DEVIN SPRINKLE

I'm a passionate and proven leader with over 25 years of experience in the North American railroad industry specializing in the areas of environmental regulatory rulemaking, compliance, assessment, remediation, and emergency response. I currently hold the position of AVP Environment, Hazardous Materials and Climate Change at the Association of American Railroads in Washington, D.C. My responsibilities include the development and coordination of industry policy regarding risk management, environmental and hazardous materials issues including those regarding the transportation of nuclear waste. I am responsible for identifying both short- and long-term risk management, environmental and hazardous materials issues that affect the rail industry and advising member railroads of the potential impact of regulatory and legislative issues.
